## JOURNAL

### OFFICE OF LEGISLATIVE COUNSEL

Monday - 12 April 1965

25X1 1. [ ] Obtained from the House Foreign Affairs Committee staff copies of the galley proofs of the Agency's contribution to the Selden Subcommittee hearing on Cuban Subversion in Latin America. I talked with Mr. Selden during the day and emphasized that our contribution was being made strictly for inclusion in the hearing. Selden said this was perfectly agreeable with him but pointed out there was always the possibility that news commentators might elect to concentrate on the Agency's material. The Committee plans to release its hearings on this subject this Wednesday.

25X1 2. [ ] At the request of Mr. McCone, arrangements were made for the Director, Admiral Raborn and Mr. Helms to meet with Senator Stearns, Representative Rivers and Representative Mahon tomorrow morning. All of these members are scheduled to attend hearings in the morning but their staff advisors felt they could excuse themselves from the hearings in order to meet with the group.

25X1 3. [ ] Returned to Jay Sourwine, Senate Internal Security Subcommittee staff, the galley proofs of the transcript of [ ] testimony with corrections.

25X1 4. [ ] Delivered to Bill Saltonstall the information and materials he had requested. Bill advised me among other things that the Senator has talked to Admiral William Raborn and expects to meet with him tomorrow.

25X1 5. [ ] Met with Mr. James Gehrig, Counsel, Senate Committee on Aeronautical and Space Sciences, and briefed him on the failure of the Soviet lunar flight.
